### SUMMARY

I am a Full stack web developer and open-source enthusiast who loves clean code and accessible design. Fluent in multiple languages, frameworks, and technologies, and developing analytics software to improve data visualization and productivity metrics.

### SKILLS

**Front-End:** JavaScript, React, Redux, jQuery, HTML5, CSS3

**Back-End:** Ruby, Rails, MySQL

**Tools & Methods:** Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

**Professional:** Remote Pair-Programming, Teamwork, Mentoring, Technical Support, Freelancer

### EXPERIENCE

#### Freelancer Web developer

Remote

January 2021 – Present

- Built projects for communities with light businesses
- Applying extensive industry experience to guide students on potential career paths within web development.

#### Microverse

San Francisco, California

Code Reviewer

June 2022 – Present

- Provided technical support through code reviews.
- Retained Microverse students by guiding them with advice on how to persevere and remain resilient through the program.
- Improved code organization to enhance code quality and overall performance.

#### Microverse

San Francisco, California

Full-stack Software Developer

August 2022 – Present

- Mentoring junior developers that are aiming at changing their lives as per Tech Industry, at an average of four students per week as per schedule.
- Review 10+ projects a day, achieving 100% review quality, by accelerating junior developers' skill set and consistency using the criteria provided.
- Deliver objective feedback to 50+ junior developers on best practices, Git skills, clean code, etc. to foster a positive culture around reviews, hence improving collaboration and relationships.
- Apply GitHub pull requests and live pages, Linter rules, and other tools to review code quality.

### EDUCATION

MICROVERSE

San Francisco, California

January 2022 – September 2022

#### Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily stand-ups to communicate and collaborate with international remote developers.

### INDIA

#### IK Gujral Punjab Technical University

July – 2014 – August – 2017

- Bachelor of Degree in Electrical Engineering
